SUBJECT INDEX

Acetamide,
vibrational spectra of acetamide and thioacetamide at low temperature: Fermi resonance and hydrogen bond studies 339
1-Acetylpyridinium halides,
interionic vibrations and the molecular structure of ion pairs for 1-acetylpyridinium halides 321
Acrylic acid,
infrared spectrum and rotational isomerism of acrylic acid 17
rotational isomerism of acrylic acid 31
Adenine,
a critical study of the application of ultraviolet spectroscopy to the self-association of adenine, adenosine and 5′-AMP in aqueous solution 353
Adenosine,
a critical study of the application of ultraviolet spectroscopy to the self-association of adenine, adenosine and 5′-AMP in aqueous solution 353
Aluminum oxide (AlO),
vibrational relaxation and V—V transfer studies of aluminum oxide (AlO) in argon matrices 215
5′-AMP,
a critical study of the application of ultraviolet spectroscopy to the self-association of adenine, adenosine and 5′-AMP in aqueous solution 353

o-Benzyne,
on the vibrational spectrum of matrix isolated *o*-benzyne 301
1,8-Bis-(dimethylamino)naphthalene 2,4-dinitroimidazolate,
structure and IR spectroscopic behaviour of 1,8-bis-(dimethylamino)naphthalene 2,4-dinitroimidazolate 329
2-Bromoethanol,
quantum yield distribution of the IR photolysis of 2-bromoethanol in solid argon 275
Br_2O,
photochemistry of an ozone—bromine complex; the IR spectrum of matrix isolated Br_2O 1

Carbon monoxide activation,
studies of carbon monoxide activation with atomic lithium: IR spectra of LiCO, LiOC, LiC_2O_2 and $Li_2C_2O_2$ in cryogenic matrices 187
CH_4, CH_2D_2 and CD_4,
infrared spectroscopy of CH_4, CH_2D_2 and CD_4 adsorbed on sodium chloride films 167
Chemiluminescence,
the $C_2N_2\ a^3\Sigma_u^+ \rightarrow X^1\Sigma_g^+$ chemiluminescence in matrices 155
5-Chloro-2-pyridone,
spectroscopic investigations of phase transition in 5-chloro-2-pyridone 371
C_2N_2,
the $C_2N_2\ a^3\Sigma_u^+ \rightarrow X^1\Sigma_g^+$ chemiluminescence in matrices 155
Cyclic hydrocarbons,
matrix isolation studies of the 1:1 complexes of the hydrogen halides with cyclic hydrocarbons 61
Cyclopropane,
matrix isolation studies of the interaction of cyclopropane with strong Lewis acids 67

Diatomic molecules,
comparison of the electronic energy levels of diatomic molecules in the gas phase and in inert solid matrices 43
Dicarbide molecules,
ESR of some transition-metal dicarbide molecules 93
N-[2-(*N*,*N*-Diisopropylamino)ethyl]-2-oxo-1-pyrrolidinacetamide sulphate,
solid-state structure and solution conformation of the nootropic agent *N*-[2-(*N*,*N*-diisopropylamino)ethyl]-2-oxo-1-pyrrolidinacetamide sulphate. X-ray and homonuclear two-dimensional ^1H NMR studies 311
Dimethylsulphite,
the vibrational spectrum and conforma-

tional behaviour of dimethylsulphite in low temperature matrices 119
Doubly-charged molecular cations,
state-to-state studies of the dissociation of doubly-charged molecular cations: methane dication revisited 197

Fe(II) complexes,
light-induced excited spin state trapping (LIESST) for Fe(II) complexes: infrared studies at ca. 10—298 K 295

HF complexes,
FTIR spectra of HF complexes with phenylalkynes in solid argon and nitrogen 103
Hydrides,
interpretation of infrared intensities of some simple hydrides 289
Hydrogen bonding,
conformation, hydrogen bonding and large amplitude motion investigation of *N*-methylethylediamine by microwave spectroscopy 385
Hydrogen halides,
matrix isolation studies of the 1:1 complexes of the hydrogen halides with cyclic hydrocarbons 61

Interstellar problems,
interstellar problems and matrix solutions 255

Lithium,
studies of carbon monoxide activation with atomic lithium: IR spectra of LiCO, LiOC, LiC_2O_2 and $Li_2C_2O_2$ in cryogenic matrices 187

Matrix solutions,
interstellar problems and matrix solutions 255
Methane dication,
state-to-state studies of the dissociation of doubly-charged molecular cations: methane dication revisited 197
N-Methylethylediamine,
conformation, hydrogen bonding and large amplitude motion investigation of *N*-methylethylediamine by microwave spectroscopy 385

Nickel,
rare gas matrix studies of the products of vaporization of nickel 129

Organo-phosphorus compounds,
quantitative prediction and interpretation of vibrational spectra of organophosphorus compounds. Part I. Phosphine oxide (H_3PO) and phosphinous acid (H_2POH) 237
Ozone—bromine complex,
photochemistry of an ozone—bromine complex; the IR spectrum of matrix isolated Br_2O 1

Perfluoro-3-thiolen,
the molecular structure of perfluoro-3-thiolen determined by gas-phase electron diffraction 305
Phenylalkynes,
FTIR spectra of HF complexes with phenylalkynes in solid argon and nitrogen 103
Phosphinous acid (H_2POH),
quantitative prediction and interpretation of vibrational spectra of organophosphorus compounds. Part I. Phosphine oxide (H_3PO) and phosphinous acid (H_2POH) 237
N-(2-Pyridyl)thioacetamide,
vibrational and ^1H NMR spectra of *N*-(2-pyridyl)-thioformamide and *N*-(2-pyridyl)thioacetamide 399
N-(2-Pyridyl)-thioformamide,
vibrational and ^1H NMR spectra of *N*-(2-pyridyl)-thioformamide and *N*-(2-pyridyl)thioacetamide 399

Quantum yield distribution,
quantum yield distribution in the IR photolysis of 2-bromoethanol in solid argon 275

Selenium trioxide vapour,
matrix isolation and mass spectrometric studies on selenium trioxide vapour: the characterisation of monomeric SeO_3 141
Sodium chloride,
infrared spectroscopy of CH_4, CH_2D_2 and CD_4 adsorbed on sodium chloride films 167
Solid matrices,
comparison of the electronic energy levels of diatomic molecules in the gas phase and in inert solid matrices 43

Thioacetamide,
vibrational spectra of acetamide and

thioacetamide at low temperature: Fermi resonance and hydrogen bond studies 339
Transition-metal,
ESR of some transition-metal dicarbide molecules 93
1,1,2-Trichlorotrifluoroethane,
the conformation and vibrational spectra including matrix isolation of 1,1,2-trichlorotrifluoroethane 73
